

Babies Missing Brains

“By their fruits you shall know them” Matthew 7:16-20 - Healing Gospel 4

Jim LeBeau Certified Natural Healthcare Practitioner

Babies born missing parts of brains, anencephaly, was reported connected to pesticide exposure by the National Library of Medicine. From a 2007 study of workers in a farm area using lots of pesticides: “The results showed a nearly *fivefold increase in risk* of anencephaly for mothers exposed to pesticides while working in agriculture during the acute risk period. Fathers exposed to pesticides at any time while working in agriculture had *twice the risk* of having an anencephalic child”. Who is responsible for this “fruit”? For the study pubmed.gov, “Reproductive health: Pesticides and Anencephaly”.

Recently my daughter, a foster parent in Waupun Wisconsin, took on a 9 month old baby with anencephaly from the Milwaukee area far away from farm fields and pesticides. Pesticides are all over. Anencephaly now occurs in about 1 of every 5000 babies. Will it follow the pattern of autism, once 1 in 10,000, now 1 in 31? That’s depends on who has the courage to honor a healing gospel and respect God’s way of growing food.

Among other “fruits” that need healing is a “giant problem” of “massive epidemic of vaccine injuries” reported by experts at MAHA Institute. Most people know someone injured by a vaccine. I know of two. One was a close friend who threw up blood after her second Covid shot, six months later dead from cancer. Second was a lady in a wheelchair who told me how she was crippled by a Covid shot as I helped her with groceries.

To these “fruits” add heavy metal poisoning from industrial sludge dumped on farm fields as fertilizer, something rarely connected to their sick effects.

“By their fruits you shall know them”. Some make the sick. Some take the sick. Some ignore the sick. Some heal the sick. Which ones follow Jesus? The good news is that in serving the Lord by healing we find peace. Action brings hope. A first priority is to fix hearing. “If they don’t listen to Moses and the prophets they won’t be convinced even if someone rises from the dead” Luke 16:31. Hear the call to wholeness, a voice that whispers across the eternal stillness of time and space and says to a listening soul *be whole*.

For those who hear the call the path begins with real food for both body and soul. The beautiful words of Jesus are real food for the soul. Real food for the body comes from plants with strong enough immune systems to resist hungry bugs. The result is food without poisons, babies with whole brains, key elements in a proper ratio with each other, and souls getting to know God Part 1. Part 2 is mother’s milk and maternal-infant bonding. If we get these two right we are on a pathway to wholeness, better health for all, and earth much closer to heaven. If we fail it’s more hell on earth.

Among “fruits” of our time that need healing are *behavior* issues. Weston A. Price D.D.S. ninety years ago travelled the world in search of the healthiest people. He found 14 places where people grow old without getting sick and no need for hospitals *or jails!* Imagine - *no need for jails!* Not only were they enjoying good health and keeping their teeth into a ripe old age, *they even behaved better!* “All things work together for good for those who love God, and who are called according to His purpose”.

In the 1970s Alexander Schauss scientifically documented the connection of nutrition to behavior in **Diet, Crime, and Delinquency**. So have others from the Feingold diet in the 1970s to an Appleton Wisconsin school study. As reported by Jeffrey Smith “Before they replaced their cafeteria’s processed foods with wholesome nutritious food the school was described as ‘out of

control'. There were weapons violations, student disruptions, and a cop on duty full time. After the change in school meals the students were calm, focused, orderly. There were no more weapons violations and no suicides, expulsions, dropouts, or drug violations".

Isn't it wonderful to know that if we honor God's ways we not only feel better, we behave and obey God better. It is no secret what God can do. Healthy bodies and healthy minds go together. The Romans had a saying for it "sans mens in sano corpore" (sound mind in sound body). Of course Christian behavior still needs to be taught, but that job becomes so much easier with all things clean, wholesome, and whole - including brains.

In early life malnutrition and mal-behavior show up as ADD and ADHD, later morphing into a broad range of health, addiction, and criminal issues involving alcohol, drugs, mass killings, and ultimately increased occupancy rates of jails and mental institutions. As with cancer that can only be cured with oxygen and love, the only real cure for misbehavior and moral decay begins at ground level with chemical-free farming, whole food nutrition, God's way of making beautiful babies, and a healing gospel of Jesus.

Meanwhile not to worry, drug companies have answers for everything. Medicines to control feelings and behavior include Ritalin, Zoloft, Prozac, tranquilizers of all kinds etc. These may be prescribed with little or no attempt to identify and correct underlying causes. When depression and mental health issues become serious add SSRI drugs (selective serotonin reuptake inhibitors). SSRI drugs *take* away Godly feelings such as love, compassion, responsibility etc. In their place is indifference. What could go wrong? Now you have a perfect storm for someone to shoot kids in school after murdering his mother - Adam Lanza, Sandy Hook 2012. The same toxic soup leads a co-pilot to fly a plane into a mountain with 150 on board with

his heart hardly skipping a beat - Andreas Lubitz - German co-pilot 2015. The same applies for a loner in Las Vegas killing 59 and injuring 527 - Stephen Paddock Oct. 1, 2017. When you see news of a random acts of violence on TV that make no sense whatsoever always ask a simple question - *why don't you tell us what legal drugs they were on?* A Midwestern doctor who writes for Merola.com wrote "this violent behavior (and the frequent suicides that followed it) were observed throughout the SSRI clinical trials, but were covered up by the drug regulators (e.g. the FDA)".

The good news - there is MAHA discussion of investigating SSRI connections to random horrific acts of violence. Tampa Bay Journal August 2025: "A newly released analysis of FDA adverse event reports is raising alarms about the potential for SSRI antidepressants to be linked to violent behaviors".

Meanwhile hear the call to wholeness, a voice that whispers across the eternal stillness of time and space and says to a listening soul *be whole*. A gospel that ignores importance of hearing a call to completion or wholeness in Christ is a gospel of cruelty - full stop. "You are complete in Him" Col 2:10.

Within the next 30 years or so some reading this will meet the Lord. That's pretty much guaranteed. He may ask you - what did you do to save My little ones from autism, anencephaly, ADD, ADHD, diabetes, cancer, mass killings, violence, jails, and mental institutions?

Did you lift a finger to heal the "fruits" of your times and their suffering with My gospel of healing, completion in Christ, and mercy?

Your answer will be _____?
